## Skills

- Java | JavaScript | TypeScript | C++ | Python | MySQL | Sanity | Node.js | Express.js | React.js | Redux | jQuery | MongoDB | Git
- Docker | Firebase | Kubernetes | Frontend | Backend | Full-Stack | English, Hindi, Nepali – *All professional proficiency or above*

## Experience

### Full-Stack Developer

### SHIVAM GROUP

Kathmandu, Nepal

May 2022 – Feb 2023

- Designed and maintained company's portfolio website. <https://shivamgroup.com.np/>
- Implemented UI/UX changes throughout to make it more SEO friendly.
- Designed Webapp with API integration and authentication which allowed user-data to be accessed using a web-app on local network.
- Migrated employee data from SQL to Firebase and created a webapp to auto-backup the JSON to local-server every two weeks.

## Projects

- **CODEQUERYAI:** Backend developed using **ExpressJs**. Backend server hosted on **ONRENDER**  
AI model used: **Code-cushman-002** from OpenAI which has max requests of upto **4,000 tokens**  
Source code to project available on <https://github.com/x0samnan/CodeQueryAI>  
To test the working of project, click [here](#) to redirect to deployment (Deployed using **Vercel**)
- **WEATHER FORECAST :** Forecast can be fetched according to location. Can fetch data of over **200,000 cities**  
Can fetch and display data like temperature, wind speed, humidity, sunrise, sunset etc  
Source code to project available on <https://github.com/x0samnan/WeatherAppReact>  
To test the working of project, click [here](#) to redirect to deployment (Deployed using **Vercel**)
- **WEATHER BOT TWITTER :** Fetches weather using **Open-Weather API**  
Module used to connect to Twitter API → **Tweepy**  
Source code to project available on <https://github.com/x0samnan/TwitterWeatherBot/>  
To check the results, tweeted by bot, visit [https://twitter.com/Just\\_AnotherBot](https://twitter.com/Just_AnotherBot)
- **PORTFOLIO WEBSITE:** Backend developed using **Sanity**.  
Used animation library like **Framer-Motion** for smooth **UI/UX**  
Source code to project available on <https://github.com/x0samnan/Portfolio>
